Animal Medical Center will take every reasonable precautionary effort during your pets stay to protect your pet from illness, injury, weight loss, CIRDC (chronic infectious respiratory diseases), diarrhea and pet to pet injuries.

Unfortunately dogs will be dogs and sometimes unexpected events can occur that result in pet injury, illness, or escape. Animal Medical Center is not responsible for any injury or illness that occurs while in our care that is beyond our control. For example, certain diseases are multifactorial (stress, age, vaccination status, etc.) and Animal Medical Center cannot control all aspects of your pet's health. Therefore, we are not responsible for any respiratory illnesses developed during or after boarding at Animal Medical Center due to the multifactorial nature of these diseases.
